Community Member Initiative
Community member completes the Community Initiative Support Request form and gathers additional information or approvals as required. Support is available if needed, just ask
Community Connector/Tapawera Connect Team Member supports
The support request is considered by the Operations Team to refine it and determine the best way to support the initiative
The project proposal is considered by the Community-Led Development (CLD) Team. The Community Member is encouraged to attend the team meeting, with support if they wish. Otherwise a coordinator can speak to the proposal.
If the initiative is considered and doesn't align with the Community Vision or CLDP criteria, but will still benefit the community, other avenues for support can be suggested or explored.
If the initiative is considered and doesn't exactly align with the Community Vision or CLDP criteria, feedback can be given so the proposal can be revised and re-submitted.
If the initiative is considered and not supported, feedback will be given about the reason/s.
CLD Team assesses the project and if the response is positive, works with the DIA adviser and project lead to ensure the proposal is as strong as it can be.
The project is submitted to the DIA Funding Panel.
Funding is secured and project lead, supported by the Community Connector, works to get the project up and running.
Project is monitored as it progresses and is evaluated at completion.
Final report submitted to the CLD Team.
